Additional Info:

LSI provides an aggressive, high-tech environment for experienced and entry-level candidates alike. All employees are encouraged to seek additional responsibilities, promotions, or lateral positions within the company. Our customers, who range from the Fortune 500, to 200 year old publishers, to dot-com start-ups, all rely heavily on LSI to deliver technology and strategies integral to their on-line survival. Senior management is a great blend of high-level technical talent, academic/teaching, and entrepreneurship. LSI hires with the intention of teaching, training, and promoting.

LSI Mission Statement:

Link-Systems International is the leader in providing integrated technology and service solutions to educators in order to improve the quality of education and training, ensure student success and retention, and provide affordable education to students, workers, and their families.
